ABOUT ME

UI/UX Designer with hands-on experience delivering end-to-end design solutions from user research and information architecture to high-fidelity prototyping, design systems, and usability testing across government, academic, and startup projects. Proven ability to translate complex product and business requirements into intuitive, consistent interfaces while collaborating closely with cross-functional teams (PM, developer, QA) throughout the full implementation cycle. Complementary front-end development background (Laravel, HTML/CSS) enables realistic, buildable design decisions.

EDUCATION

Universitas Muhammadiyah Yogyakarta

S1 Information Technology | GPA : 3.75/4.00

Agt 2022 – Jul 2026

- Relevant Coursework: Human-Computer Interaction, Requirements Engineering, Object-Oriented Design, Multimedia Applications, User Evaluation, Prototyping.

WORK EXPERIENCE

Dinas Komunikasi dan Informatika Kabupaten Bantul

UI/UX Designer Intern

Feb – Apr 2025

- Designed 30 interface pages for Bantul Regency's public information dashboard (2-designer team), covering full design lifecycle from wireframe to high-fidelity UI.
- Translated public information requirements into structured user flows and layouts; participated in weekly stakeholder review sessions to ensure alignment with functional requirements.
- Built and maintained a Design System (color tokens, typography, spacing, component library) to ensure consistency across 30 pages and facilitate clean developer handoff.
- Collaborated directly with 2 developers during implementation, providing design clarification and reviewing outputs to ensure visual and interaction fidelity.

Evolution IT

Frontend Developer Intern

Feb – Apr 2026

- Developed UI for a web-based employee attendance system (Laravel/Blade) and led UI migration from PHP Native to modern Laravel components, preserving layout, typography, and interaction pattern consistency throughout implementation.

PROYEK DESAIN

Dompot Warga — Neighborhood Financial Management App

UI/UX Designer

Jan – Jun 2026

- Designed 100 wireframe and high-fidelity pages in Figma for 2 user roles (Admin & User); built the Design System from scratch enabling consistent component reuse across 100+ screens.
- Conducted usability testing with 12 respondents (2 Admin, 10 User) to evaluate navigation clarity, task completion rate, and overall ease of use; developed a fully interactive prototype as a development handoff reference.

MarketChain — Retail & Demand Analytics Simulation

UX Designer

Jan – Jun 2026

- Designed UX for Retail and Demand modules of a web-based simulation platform covering branch management, procurement, inventory, and sales transaction flows.
- Developed analytics dashboard UI presenting sales visualizations and data-driven insights; validated via Agile sprints, Black Box Testing, and UAT.

Kafe Kala — Café Mobile Application

UI/UX Designer

Jan – Jun 2026

- Independently conducted user research and built full UX foundation: Information Architecture, User Flow, wireframes, and high-fidelity designs in Figma.
- Developed an interactive prototype to validate user flows and provide a realistic reference for development handoff.

Website IMM FH UMY — Organizational Website

UI/UX Designer

Jun 2025

- Designed information structure and homepage layout using WordPress; produced a more structured and user-friendly interface for organizational members.

CERTIFICATIONS

- **UI/UX Intensive Bootcamp** | PT Special Skill Indonesia | 2026
- **BNSP Certified System Analyst** | 2026
- **Certiport IT Specialist: HTML & CSS** | 2026

ORGANIZATION & LEADERSHIP

Keluarga Mahasiswa Teknologi Informasi (KMTI)

Public Relations Secretary

Okt 2023 – Jul 2024

- Managed 5+ PR division work programs; expanded collaboration network by 30–40% and contributed to digital communication strategy that increased social media engagement by 25–35%.

Keluarga Mahasiswa Teknologi Informasi (KMTI)

Public Relations Member

Okt 2022 – Jul 2023

- Managed administration of the Public Hearing work program (activity proposals & accountability reports) and supported event implementation twice within one management period.
- Developed and distributed questionnaires to IT Study Program students, collecting 100 responses as evaluation material; coordinated with internal and external divisions to align questionnaire content with each division's evaluation needs

SKILLS

Languages : Indonesia (native) | Inggris (Intermediate — TOEFL 460)

Core Competencies : Wireframing · High-Fidelity Mockup · Responsive Design | User Research · Information Architecture · User Flow · User Journey Mapping · Usability Testing · Requirements Analysis

Technical : Figma | Draw io | HTML | CSS | Laravel (Blade) | WordPress | Vercel | Github
